Data Results Period upon which this Action Plan is based (period which ended 6/30/xx):
 Fall 2012 and Spring 2013

Action Plan (close the loop):
 After reviewing the data collected for this period it was determined by the faculty that we were not measuring the proper outcomes and using the appropriate measurement tools. Therefore, we held a series of meetings and compiled a new set of outcomes that we believe better reflects the areas we should be assessing. At the same time, we are developing specific rubrics tied to the measurement tools which will allow us to gather more beneficial data.

ASSESSMENT PLAN

The assessment plan includes three parts:

1. **The plan description** (This should be a brief written description of the assessment plan(s) for the area/certificate/degree/discipline. If all outcomes are not shown in item #3 below as assessed in the 5 year cycle, this description must include information about their eventual assessment)
2. **The student learning outcomes for the area/program/discipline** for the 5 year cycle.
3. **The assessment cycle timeline**

1 Plan Description

This assessment plan measures the skills identified by the program as necessary for success of our students in the workplace. The measurement tools are an accurate reflection of a student's learning outcomes identified by the plan. The rubrics used specifically identify how the outcomes are being measured by the selected measurement tools.

- 2 **Provide the list of current student learning outcomes for this area or program (you may add more lines if necessary by right clicking and choosing insert row below):**
